PROJECTS

➢ ONLINE EXAM SYSTEM-

A simple project based on Online Examination Management System which uses PHP Language. It has important features that will allow all the users to interact in a way that online examinations interacts with students on basis of exams and scores. This system as well as the web application's concept is all clear, it's the same as real-life scenarios and well-implemented on it.

- ➢ TRAVELMATE
  Travel Mate is an android app for travellers. It provides features like choosing the correct destination, making bookings, and organizing the trip. It provides solutions for every problem a traveller might face during their journey. It provides a comprehensive list of information about a destination: current weather, best places to hangout, and city's current trends. Checkout Features list for a detailed feature description.

- ➢ ALERTME
  Alert Me provides social event setting capabilities that allow the user to create reminders manually or automatically and share the automated messages with friends through WhatsApp. Now, only birthdays from facebook can only be used. In future, we can add birthdays from googleplus.

- ➢ ELECTRONIC VOTING MACHINE
  The E-Voting Management System in VB.Net is a software based system that is made up of VB.Net and MS Access for the database. It only contains an admin who is in charge in managing the system. This E-Voting Management System in VB.Net and MS Access Database is designed as a very simple and easy to use system.

ACHIEVEMENTS & MERITS

- ➢ Certificate from central board of secondary education for participating in problem solving assesment

- ➢ Certificate of .netvb project from LCC for 6 month.

- ➢ Have won Silver Medal from Santa Maria for chess.
